

PLEASE READ THIS CAREFULLY

HAMMER-HEAD BATTERY USE AND LIABILITY

HAMMER•HEAD® pool cleaning units are in use across the United States and in other parts of the world. Routine maintenance and care will ensure that your HAMMER•HEAD® will perform safely and effectively for years.

****Please Read This Warning: IMPROPER BATTERY USE OR FAILURE TO INSPECT AND MAINTAIN YOUR 12 VOLT BATTERY CAN RESULT IN SHORT CIRCUITS, DAMAGE DUE TO OVERHEATING, BATTERY FAILURE, AND POSSIBLE FIRE OR PERSONAL INJURY. THE OPERATOR ASSUMES ALL RESPONSIBILITY AND/OR RISK ASSOCIATED WITH THE USE OF ANY HAMMER-HEAD PRODUCT, INCLUDING BATTERY SELECTION, INSTALLATION, USE, AND MAINTENANCE. USE OF ANY POWER SOURCE OTHER THAN A 12 VOLT DEEP CYCLE MARINE BATTERY IS NOT RECOMMENDED AND CAN VOID ALL WARRANTY OR LIABILITY CLAIMS.**

- Wiring connections must be inspected daily. Wires that are hot to the touch indicate a connection problem and should be repaired. HAMMER•HEAD® units that are not working properly should be repaired immediately or disconnected from all power sources and removed from service.
- Do not place anything in the battery box that can bridge the terminals on the battery - this can cause direct short circuits and possible fire or even battery explosion.
- We strongly recommend removing all chemical containers, bottles, dry chlorine, or chlorine tablets from your vacuum cart before battery charging. Always keep chemical agents away from any heat or flame source.
